

TG 100 Workshop
 (Session 7 of the TG 100 Certificate Course)

Process Mapping Exercise

Certificate Program, AAPM Annual Meeting, August 2016.

Learning Objective

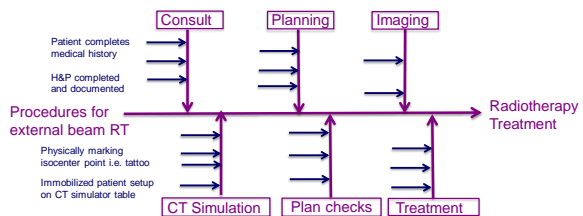

To gain experience, as a team, in developing a Process Map

2

What is a Process Map?

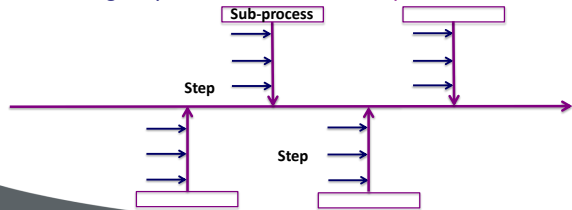

- A picture of the steps of a process arranged in order
- Describes the way things get done
- A display of the flow of information
- A diagram of the interrelationships between steps
- Can be regarded as a visual representation of a Standard Operating Procedure.

One representation

Process Mapping Exercise

Think of some of the key steps for a **generic** emergency treatment and develop a Process Tree.

Process Mapping Exercise

Think of some of the key steps for a **generic** breast treatment and develop a Process Tree.
