

GLC Beginnings and Membership

The Great Lakes Chapter of the American Association of Physicists in Medicine was founded in 1976. Our chapter draws its membership from throughout Michigan, northwest Ohio, and Ontario, Canada. We are fortunate to have a large group of members engaged at the local and national levels of our profession. Additionally, the Great Lakes Chapter boasts 25 fellows of the AAPM.

GLC Officers

The e-board of the GLC consists of the following offices: Secretary, Treasurer, Board Representative, President-Elect, and President. The President-Elect serves a one year term before transitioning to a one year term as President, while the other positions serve within two year terms.

GLC Meetings

The GLC hosts several types of meetings, some of which are held annually:

1. Spring Meeting and Young Investigators Symposium – this meeting provides an opportunity for young researchers in the local chapter to present their original research. The top three presenters are recognized in the closing remarks of the meeting with a plaque and prize.
2. Fall and/or Winter Meetings – this meeting is typically focused on a relevant and interesting clinical topic, with invited speakers giving their perspective on the topic of interest. Past topics include: use of FMEA in the clinic and use of MRI in radiation therapy.
