Dosimetric Characterization of an OBI system using Gafchromic XRQA2 film

Figure 1  Percentage depth doses along the anterior-posterior direction in a 25 cm diameter phantom on Varian’s Trilogy OBI system using High-Quality head and low dose thorax CBCT acquisition templates and Gafchromic XRQA2 film.

Figure 2  Percentage depth doses along the right-left direction in a 25 cm diameter phantom on Varian’s Trilogy OBI system using High-Quality head and low dose thorax CBCT acquisition templates and Gafchromic XRQA2 film.
